EPS Emergency Spill Kit Family

10 Gallon

20 Gallon

30 Gallon

50 Gallon

Description

The “EPS Emergency Spill Kits” are designed to rapidly absorb oils, fuels or most other hydrocarbon materials from leaking machinery or accidental spills.

Each kit is comprised of various EPS materials that Encapsulate the Hydrocarbons making it safe for disposal in normal landfills saving the customer significant money \$\$ on disposal costs over polypropylene and kitty litter filled systems!

The “EPS Emergency Spill Kits” are designed to work effectively either indoor or outdoor conditions. Each kit contains: Clean-up Litter (loose absorbent), Oil Socks, Oil Pillows, Nitrile Safety Gloves, Safety Goggles, Absorbent Pads, and Disposable Bags.

Product Matrix

Part Number	Description
SK-0010	10 gallon storage barrel containing enough materials capable of cleaning up a 10 gallon emergency spill.
SK-0020	20 gallon storage barrel containing enough materials capable of cleaning up a 20 gallon emergency spill.
SK-0030	30 gallon storage barrel containing enough materials capable of cleaning up a 30 gallon emergency spill.
SK-0050	50 gallon storage barrel containing enough materials capable of cleaning up a 50 gallon emergency spill.

We can custom make spill kits to fit your needs as well!
